COLORADO FUEL THE FEATURE

The Gain In Cash Was Fully Up to Expectations-Loan Incre-se Came as Surprise-Surplus Reserve Increase Very Gratifying,

(By Associated Press.)

NEW YORK, Oct. 25.—The stock market was inactive and generally higher at to-day's opening, but later relapsed into extreme duliness and falled to make a response to a very favorable bank statement. In the early operations advances were scored by Baltimore and Ohio, Atchison, St. Paul, Reading, Norfolk and Western, Union Pacific and Southern Pacific as well as by Colorado Fuel and Iron and Amalgamated Copper. Elsewhere the list displayed little animation and no material changes. The Gould stocks later became a feature by reason of their strength, and there was some good buying of Texas Pacific, Wabash common and St. Louis Southwestern. The dealings in Colorado Fuel gave rise to reports of competitive buying, and that stock was again the feature of the day in point of activity, though it closed with a fractional loss.

petitive buying, and that stock was against the feature of the day in point of activity, though it closed with a fractional loss.

Improvements shown by Canadian Pacific was due to increased carnings, and Chesapeake and Ohlo held steady in spite of an advance showing. The strength of cotton oil resulted from the belief that a consolidation with any kindred company would be of great benefit to it. Only the most favorable comment was heard regarding the bank statement, and traders were at a loss to account for the selling movement which set in with its publication. The statement was regarded as a very correct exposition of local financial conditions. The gain in cash was fully up to expectations, but the loan increase came as a surprise and was doubtles due to some of the week's syndicate operations. The increase of over \$12,000,000 in surplus reserves was especially gratifying, and liabilities of the associated banks proved to be within \$1,700.000 of their resources.

The market closed somewhat unsettled and very dull. Not changes showed improvement over teh previous day, but with the exception of the movements in the special class, this including Colorado Fuel. Consolidated Gas, North American and New York Air Brake, gains were chiefly fractional. The day's business was barely in excess of 200,000 shares. Sterling exchange was quoted at a slightly higher figure, but no importance was attached to this feature. The nominal rate for call money was 2½ per cent. The sub-Treasury paid out \$100,000 for account of San Francisco and received the same amount for transfers to New Orleans.

Railroad bonds' were considerably less active and showed decided irregularity throughout, United States 2's and 3's advanced 4's per cent, as compared with the closing call of last week.

The total sales of stocks for the day were 200 500 shares.

MONEY AND EXCHANGE-Money or MONEY AND EXCHANGE—Money on call nominal; no loans to day; prime mercantile paper, 6 per cent Sterling exchange steady with actual business in bankers' bills at \$4.85,5094.86.65 for demand and at \$4.83,5094.85.56 for sixty days bills; posted rates, \$4.84 and \$4.874; commercial bills \$4.82,5094.83. Bar silver, 50% Mexican dollars, 33%. Government bonds steady; State bonds inactive, railroad bonds firm.

DELAYING THE CANAL

Disappointment at Colombia's Failure to Act. (By Associated Press.)

WASHINGTON, Oct 25.—Non-action on the part of the Government of Colombia on the pending Isthmian canal treaty is postponing the appointment of the commission which is to take charge of the construction of the canal. It was at first construction of the canal. This was upon the assumption that the agreement upon the outlines of the treaty with the canal company reached in Washington between the Secretary of State and the Colombian Minister, amounted to a pledge by the latter in behalf of his own government to promptly ratify such a treaty. Now it has developed that the ratification of the treaty is a long ways off, owing to the fact that he Colombian Congress, before which the contention must come has not even been elected up to this time. The delay is attributed to the existence of a state of war in Colombia, but it is now expected that the country will be so far pacified that general elections can be held and that the Congress can be assembled during the winter months.

In this state of backwardness as to ratification little attention has been given here to the composition of the United State Canal Commission. The one fact relative to the commission that has developed is that Rear-Admiral Walker, who had been a member of the two preceding commissions, will be a member of this commission.
